MEXICAN WAR AVERTED, VIEW IN WASHINGTON

Carranza's Note, Now in Wilson's Hands, Is Called Satisfactory.

U. S. TROOPS WILL RETIRE GRADUALLY

Militia to Stay on Border-Frontier Protection to Be Arranged Later.

WASHINGTON, July 5 .- Early rethe United States in its relations with meet expenses of fighting the disease.

been dissipated by the amicable note \$41,000 at least. from Gen. Carranza, presented during

He said that supplies, may fifteen medical inspectors and at least

here, Eliseo Arredondo.

The note proposes that the differences between the Governments be settled either by mediation or by direct negotiations. It is remarkable of the Mission Avenue hospitals as present, whereas Dr. in the hospitals as the content of the state of the should have at least one nurse. More than the hospitals as present, whereas Dr. in the hospitals as the present of the state of the state of the should have at least one nurse. More than the hospitals as the hos

Text of the Note. The note as transmitted by Mr. Ar-dondo is as follows:

WASHINGTON, D. C., July 4, 1916.

Mr. Secretary:

I have the honor to transmit in continuation the text of a note I have just received from my Government, with instructions to present it to your Excellency:

Referring to the notes of June 20 and 25 last I have the honor to say to your Excellency that the immediate release of the Carrizal prisoners was a further proof of the sincerity of the desires of this Government to reach a pacific and satisfactory arrangement of present difficulties. This Government is anxious to solve the present conflict, and it would be unjust if its attitude were misinterpreted. that earnestly suggested a plan for cantonments along the boundary line

to seek an immediate solution the two countries, to wit:

The American Government believes asonably that the insecurity of its ontier is a source of difficulty and Mexican Government on its part believes that the stay of American troops on Mexican territory, aside from ing a trespass on the sovereignty of conflicts. Therefore the withdrawal of American troops, on one hand, and the rotection of the frontier, on the other, are the two essential problems, the solution of which must be the directing object of the efforts of both Gov-

Ready for Quick Action.

The Mexican Government is willing and prompted by a spirit of concord, the remedies which should be applied to the present situation. Several Latin American countries have offered their friendly mediation to the Mexican Government and the latter has accepted it in principle. Therefore the Mexican Government only awaits information that the Gov-ernment of the United States would be disposed to accept this mediation purpose mentioned above, or whether it is still of the belief that the same results may be attained by of direct negotiations between oth Governments.

poses to employ all efforts that may at its disposal to avoid the recurrence of new incidents which may complicate and aggravate the situa-At the same time it hopes that he American Government on its part hay make use of all efforts to prevent ities of the frontier that might use new complications.

I avail myself of this opportunity reiterate to your Excellency the

surance of my most distinguished

Having thus complied with higher Instructions of my Government it af-fords me pleasure to reiterate to your Excellency the assurance of my highest consideration.

Two plans of procedure are suggested by Carranza. They are mediation by the Latin American countries or direct begotiation between the American State partment and the Mexican Foreign likely to be resorted to, but it was explained that there is no particular reamy why the two governments should not resume the negotiations which were begin by the Scott-Obregon conferences on the border, but broken off because of medical precautions." Because of that

Thinks Disease Communicable.

effect every possible measure to prevent the spread of the disease. He is working on the theory that the disease is communicable; that the germs live in the nose and are wafted about in dust. The most important measure adopted yesterday was the issuance of orders by George H. Bell, Commissioner of Licenses to all theatres and motion Licenses, to all theatres and motion picture houses forbidding the admission of children under 16 years. Dr. Emerson desires to keep children away from closed places of assembly. He fears that children may get the disease by breathing bad air.

This order affects more than 800 play. The investigation is credited among Government officials with a large saving to the United States probably will be completed within two weeks, Commissioner Harris said to-day. He predicted a reduction in the price of gasolene.

No stipulation appears in the sary to meet the abnormal and extraorwill as to the disposition of the estate dinary expenditures which may be in-after the trust expires.

Committee Explains Action.

The report points out that in framing new tax law the committee decided to make the levy largely against in-comes, inheritances and munitions, on the theory that those concerned were best able to bear this additional burden. The

report says in part:

"Great Britain, before the European war, during her fiscal year ending March 31, 1914, collected from income taxes \$230,000,000 and from duties' or inheritance taxes \$132,000,000. Great Britain's total revenue was \$620,-000,000 and of this amount taxes upon out, on and of this amount taxes upon incomes and inheritances yielded \$362.-600,000, or 58 per cent. of the total. In other words, Great Britain in times of peace, collected 58 per cent. of her revenue from the taxation of incomes and inheritances. With less than one-half the population and wealth of the United States the revenues from incomes and States the revenues from income and inheritances, including 'death duties,' in Great Britain were more than four times the revenues derived from these sources by the United States,"

DOG HAS INFANTILE PARALYSIS. Fourth to Contract Disease

A poodle dog owned by Lieutenant William Gilhooley of the East 104th street police station was sent yesterday to the Society for the Prevention of Cruelty to Animals, suffering from in-

fantile paralysis.
On Sunday Gilhooley went out walking with the poodle and two hours after he returned to his home at 477 West 143d street the dog began to cough. On Bretherton, a veterinary surgeon, of 251 West 126th street. The veterinarian said the dog is the fourth afflicted with the disease to come under his notice since the recent epidemic. The dog will
